N.Sairam

Summary

I am N. Sairam, an Electronics and Communication Engineering graduate and IETE member. I am currently working as a QA Engineer at Tata Consultancy Services (TCS) since September 2024, where I focus on ensuring software quality through structured testing processes and problem-solving approaches. Previously, I have interned at Emertxe and Con10TLabs, gaining hands-on experience in front-end development and AI projects, including building a Smart Attendance System using facial recognition.

ACADAMIC QUALIFICATION

SL. No	Qualification	Institution	Year of passing	%of Mark
1	BE (ECE)	Saveetha Engineering College	MAY - 2024	7.71 (CGPA)
2	HSC	Jaya Matric Hr. Sec School	Apr- 2020	65%
3	SSLC	Jaya Public School (CBSE)	Apr- 2018	66%

Work Experience

QA Software Engineer — Sep'24 - Till Date

As a QA Software Engineer at TCS, I ensure the quality and reliability of software through systematic testing, defect analysis, and process improvement.

Engineer Intern — Mar'23-May'23

Foundational Programming Skills in C & Micro-Controllers. SDLC-Based Project Building in IOT.

Projects

Project – 1 Smart Attendance Registration and Management System through AI | IEEE Xplore

GitHub Link

This novel approach leverages deep learning techniques for video processing, modifying the existing Convolutional Neural Network (CNN) architecture to incorporate specialised features into aversatile neural network design. The proposed model considers an artificial intelligence-enabled Split Invariant Artificial Neural Network (SIANN) to make an e cient attendance registration and management system. The proposed model performance is measured through accuracy, loss function etc.

Project – 2 Believe Cars Website

Github link

I developed **Believe Cars**, a user-friendly website for buying and selling used cars. The site features an intuitive interface, detailed car listings, and advanced search filters to help users find the perfect vehicle. Leveraging my skills in front-end development, I ensured a seamless and responsive user experience making Believe Cars a reliable platform for connecting buyers and sellers.

Publications

Project Paper: Smart Attendance Registration and Management System through AI | IEEE Xplore

Publisher: IEEE

Certifications

Computer Science | Cloud Computing | NPTEL

Computer Science | Internet of Things (IoT) | NPTEL

Web Development | Introduction to Front-End Development | Coursera

UI & UX Design | Foundation of UX Design | Coursera

UI & UX Design | Build Wireframes and Low-Fidelity Prototypes | Coursera

UI & UX Design | Create High-Fidelity Designs and Prototypes in Figma | Coursera

Skills

Software/Tools:

1. VScode
2. Atom
3. MS Office
4. MySQL
5. Figma
6. Intelli J

Technical:

1. Python & C Programming
2. UI & UX Design
3. Front-End Development (HTML, CSS, JS)
4. Manual Testing
5. Automation Testing
6. API Testing

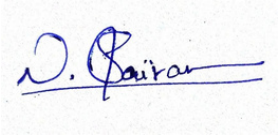
PERSONAl PROFILE :

Date of Birth	:	3rd APR 2003
Father's Name	:	M. Natesan
Gender	:	Male
Marital Status	:	Unmarried
Nationality	:	Indian
Religion	:	Hindu
Linguistic Skills	:	English & Tamil

I hereby declare that the above-mentioned details are true to my knowledge.

Place : Chennai

Signature



Date: 09/04/2026

(N. SAIRAM)
